Introduction

This report has been written to introduce you to the concepts of astrology and how to get started in relationship astrology. Astrology is a complex and meaningful science which takes years to study and apply successfully; however, we would like to whet your appetite with this report, and encourage you to deepen your understanding through other means.

Astrology is a study of the connection between planets and life on Earth. It is based on a concept that energy patterns form between other planets and Earth and that these energies affect our lives as individuals and communities.

An astrological chart, also known as a horoscope, natal chart, or birth chart, records the relationship between the planets and the signs of the Zodiac. Charts can be calculated for the birth of a person, a community, an event or anything that seems momentous. The horoscope is as individual and unique as a fingerprint.

When using these interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences, and as a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection your chart, as it is likely that you do experience conflicting desires, events and circumstances in your life. Usually it is the responsibility of an astrologer to synthesise these apparent contradictions in order to present a cohesive and realistic interpretation of the dilemmas of the chart.

Please also be aware of the fact that each person has positive and negative influences in the chart, and therefore in their lives. The challenge is to accept and overcome the negative influences, so that we can successfully focus on the positive traits. This report outlines the influence of both people's charts on each other. This is called relationship synastry meaning the comparison of two horoscopes and the correlations discovered. It is likely that the report will show both the strengths and weaknesses of the relationship synastry. Any advice given is meant to be an aid to a person taking responsibility for their own lives and their own choices within a relationship. The ultimate decision rests with each individual. The author and publisher accept no liability for any adverse affects of this report.

Australian astrologer Stephanie Johnson has written the text in this report. Stephanie holds a Bachelor of Arts (Journalism) and was a journalist in Australia, England and the USA for 15 years before becoming a

professional astrologer. She is currently a consulting astrologer, is Company Director of Esoteric Technologies Pty Ltd in Adelaide, Australia and Editor of the Australian Data Collection. Traits of Meghan Markle

Venus is in the 3rd House

When the planet Venus is placed in the 3rd House of your Birth Chart communication is an important component of any relationship. You're bright and optimistic enjoying pleasant interchanges with other people in general, and with your siblings and relatives specifically. Your relationship with your siblings is likely to play a major role in your life. You like to fill your mind with pleasant thoughts rather than dwelling on negative and disturbing ones. Therefore you enjoy social outings in pleasant company, quiet moments with nature, attending the cinema or theatre, or reading an entertaining light novel. The arts such as theatre, opera, music, ballet, sculpture or art probably appeal to your refined mind. You also find joy through traveling, whether it is a short day trip or a longer tour or cruise. You're the type of person who enjoys sightseeing; chatting to fellow travelers and sending postcards home to loved ones. You're a good correspondent, taking great pleasure in writing and receiving love letters, When not traveling you also enjoy your own neighbourhood, and striking up convivial relationships with neighbours, and local shop owners. You'll value a relationship with someone who communicates clearly. You may meet your partner through a neighbourhood group or via your siblings.

Venus is in Virgo

With Venus in the sign of Virgo you'll seek meaningful relationships with a practical basis. You may appear to be timid and shy to others, but you're simply wary, weighing up the pros and cons before entering into intimate friendships or a meaningful relationship. You approach your primary relationship with caution, preferring to take things slowly so that you can build a lasting relationship based on real principles rather than romantic illusion. It's not that you don't enjoy a little romance. It's simply that you prefer to know that a relationship is going to last in the long term. For these reasons you may suffer some disappointments in love, as others are discouraged by your reticence, failing to recognise the depths of your affection. You admire neatness and punctuality, preferring someone who is hard working and healthy living like yourself.

You enjoy someone who can converse on sensible subjects, perhaps even with an analytical mind. You need to be wary of being too judgmental, expecting perfection where it can't possibly exist.

Venus is Sextile Mars

The planets Venus and Mars are combining in your Chart indicating that you seek a stimulating and romantic relationship. You're charming and assertive, passionate and alive, and admire these qualities in a potential intimate partner. You love to share your adventures with your partner, and it's likely that your relationship will inspire both you and your partner to explore new territory. You need only be wary of holding unrealistically high expectations of your partner, as this can lead to difficulties. This is more likely to be the case when you're young and idealistic. You're liable to disappointment, perhaps even angry feelings, when your partner fails to live up to your expectations. You could also feel angry if rejected in love. Fortunately you've an irrepressible side to your nature, on which you can rely in times of relationship trouble. You're a loyal and fun-loving partner with an ability to balance intimacy with independence.

Your professional attitude to work, and harmonious working relationships, usually results in good promotional prospects and increases in salary. Your career may be linked with decorating, beauty products, women's interests, personnel management or any field that requires teamwork. Your life partner needs to respect the emphasis that you place on your career and professional contacts. In some cases you may meet your spouse through your professional contacts, or share the same profession as your loved one. You are likely to choose your partner for all of the right reasons and enjoy a harmonious bond.

Venus is in Libra

With Venus in the sign of Libra you enjoy the company of other people and tend to fill your life with people from all walks of life, although you do have a preference for people from the higher echelons of society. Your diary is filled with social occasions ranging from quiet chats with one or two friends, to larger gatherings of your loved ones. You've plenty of loved ones to choose from because human relationships are such a source of pleasure for you. You are kind and courteous and your enjoyment of people is contagious. As a result you're popular with your friends. Listening to other people's stories and offering soothing advice is almost second nature. You're particularly gifted at solving problems, because your first thought is to maintain harmony in relationships and you can always see both sides of a situation. Therefore you're able to bridge the gap between many a warring party. Your primary relationship is also important, and your first preference is for a long-lasting marriage based on fidelity and trust, rather than a series of shorter love affairs. It's important for you to keep the romance and enjoyment alive, otherwise you could feel trapped in an unrewarding relationship. You've a love of fine arts and enjoy sharing this with your friends and loved ones. You need only be wary of spending too much time and energy on your loved ones at the expense of yourself.

This relationship, if a personal one, is likely to require a lot of freedom and an unorthodox approach in order for it to last. Meghan Markle's Sun is Square Harry Prince of Wales's Saturn (Orb 0°50')

Many astrologers believe that a connection between the serious planet Saturn and a personal planet such as the Sun is important, providing the cement for a long-lasting relationship. In other words, a serious planet is needed for a serious, meaningful union such as marriage. It is certainly true that the combination of the Sun and Saturn is found in many meaningful relationships. However, the planet Saturn can also cause problems. Certainly this combination indicates that Meghan Markle and Harry Prince of Wales both view this as a serious association, whether it is a marriage, friendship or a working partnership. Both Meghan Markle and Harry Prince of Wales are committed to their association. It is likely that they experienced a strong attraction in the initial stages of their relationship. If they believe in reincarnation, then it is likely that they felt a karmic attraction when they first met. Perhaps this was a moment of recognition when they first looked into the other person's eyes. However, the very qualities, which they seriously considered as attractive in the initial stages of the relationship, can become the source of friction if they are not careful. In particular, Harry Prince of Wales needs to be wary of becoming too critical and judgmental. Initially Harry Prince of Wales found Meghan Markle's personality traits to be worthy of a committed union. He admired Meghan Markle's qualities as complementing his own. However, it is easy for Harry Prince of Wales to forget this attraction. As the relationship develops he feels threatened by the force of Meghan Markle's personality and takes a superior attitude in defence. It is vital that both Meghan Markle and Harry Prince of Wales work at developing a stable basis for communication and understanding in this relationship. If both Meghan Markle and Harry Prince of Wales work at maintaining their own self-confidence as well as mutual respect then they have the makings for a very successful marriage or working relationship. Much of their success may depend on other supportive, positive connections between them.

Harry Prince of Wales's Sun is Square Meghan Markle's Neptune (Orb 0°37')

Romance and love are central themes of this relationship between the Sun and the planet Neptune. This can suggest a romantic liaison in which both people are blessed with a sense of being with the right person at the right time, or it can mean a friendship that is based on a joint artistic project or spiritual interest. Perhaps they enjoy spending time in the natural surroundings of the beach or countryside. Either way Harry Prince of Wales and Meghan Markle are likely to enjoy escaping from the harsher realities of life into a world of their own creation. However, problems can arise when Harry Prince of Wales and Meghan Markle start to sacrifice their own personal needs for a misguided perception about what is good for the relationship. This behaviour can erode the creative component of the union and both Harry Prince of Wales and Meghan Markle may lose their self-confidence and direction in life. It is possible that, together, they may turn to drugs, alcohol or even crime in their attempts to maintain the loosening threads of their union. In particular,

Harry Prince of Wales needs to be wary of losing his sense of self. It would be easy for Harry Prince of Wales to be deceived by Meghan Markle either through his own need to believe in a dream or through Meghan Markle's behaviour. Meghan Markle needs to be wary of becoming secretive and dishonest within this association. As the relationship develops Meghan Markle may become confused about the true meaning of her bond with Harry Prince of Wales leading to a need to hide her true feelings. In other words Meghan Markle and Harry Prince of Wales take this relationship seriously. They are devoted to each other and joyful in making promises that they are both able to keep. From the start of their association they enjoy taking their time getting to know each other, experiencing stability and understanding that grows slowly over time. They genuinely love each other and want to work towards a strong partnership. At times Meghan Markle would like more fun and spontaneity, but she appreciates Harry Prince of Wales's wisdom in slowing things down in order to build a lasting union. Mutual respect is a central theme to this union. There is also a strong feeling of fate in this relationship. Meghan Markle and Harry Prince of Wales may tell a story of how destiny meant for them to be together. It is also possible that Harry Prince of Wales and Meghan Markle share an artistic or creative pursuit about which they are both ardent. Whatever the outlet for the emotions, the key is intensity. On the whole this combination of the planets Venus and Pluto has a positive influence on any association, but it can be

overpowering in some instances. If both Harry Prince of Wales and Meghan Markle enjoy intensity then this relationship positively transforms both their lives. Together they embrace the changes that challenge any relationship. If one of them dislikes emotional upheaval, then there are likely to be problems. In particular Harry Prince of Wales may feel overwhelmed at times by the force of his own emotions or the power of Meghan Markle's personality. At other times Harry Prince of Wales enjoys learning about how to be more influential in his life. Meghan Markle feels more powerful as a result of this union with Harry Prince of Wales, more able to achieve her ambitions.

Meghan Markle's Venus is Square Harry Prince of Wales's Uranus (Orb 3°15')

This combination of planets indicates an instant and vital magnetism. It is the type of attraction in which Meghan Markle and Harry Prince of Wales take one look at each other across a crowded room and feel the sparks. Romance is alight and the relationship develops at a rapid rate. Friends are amazed as the couple's union becomes more and more intense. However, it is likely that Meghan Markle and Harry Prince of Wales have trouble maintaining the excitement in the long term unless they both allow each other a lot of freedom. As the relationship develops the attraction is in danger of turning to irritation as the passion wears off unless there is a lack of restrictions. This combination is ideal for an unusual relationship, or one where both people value their autonomy, although it may take a while to establish the appropriate mix of freedom and intimacy. At times Meghan Markle may feel that her love is being rejected as other interests and pursuits distract Harry Prince of Wales. Perhaps it is difficult for Harry Prince of Wales to maintain his involvement in this relationship without becoming distracted by other creative interests. These may be scientific, astrological, environmental, technological or political. If other aspects of this relationship do indicate a strong bond, it is likely that Meghan Markle and Harry Prince of Wales experience friction in areas such as finances, personal hobbies, home comforts and friendships. The challenge for both Meghan Markle and Harry Prince of Wales is to find a balance between freedom and intimacy that suits both of them. If this can be achieved then the union becomes a highly stimulating one, which helps both Meghan Markle and Harry Prince of Wales actively pursue their own interests and aspirations.
